1 Installing Herwig-7

Download and install Herwig by running the script <https://herwig.hepforge.org/herwig-bootstrap>:

```
wget -c 'https://herwig.hepforge.org/herwig-bootstrap'
```

```
chmod +x './herwig-bootstrap'
```

```
'./herwig-bootstrap' './HerwigInstall'
```

This will install Herwig to the location './HerwigInstall' along with all of its dependencies (boost, fastjet, HepMC, etc). Full instructions for using this script is found in <https://herwig.hepforge.org/tutorials/installation/bootstrap.html>
